4x1Gbit Cu Intel I350-T4 PCIe x4 card

Fujitsu S26361-F4610-L504 network card Internal Ethernet 1000 Mbit/s:

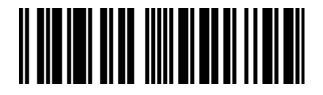

Trust the network communication of the new Ethernet LAN adapter. The new Intel I350-T4 Ethernet LAN Adapter, based on the latest Intel® 1GbE chip technology, offers four Gigabit Ethernet ports for 10/100/1000BaseT.

Virtualization support and Wake-on-LAN with selectable port are just some of the features from which you will benefit. Optimal support for your virtualization is provided by the support for Virtual Machine Device Queues (VMDq), Single Root I/O virtualization and sharing specification (SR-IOV). SR-IOV requires corresponding support in the system BIOS and in the operating system. PCI-SIG SR-IOV defines extensions of the PCI Express (PCIe) specification and enables PCI hardware resources to be shared with several system images or Virtual Machines.
