APC’s 8- and 16-port RackMount KVM switches fit on the desktop or mount in 1U of rack space. Daisy-chain compatible units and manage up to 512 servers through one keyboard, monitor, and mouse. The KVM Switches support multiple platforms (PS/2, USB, or SUN), use slimmer cables for better cable management, are firmware upgradeable, and allow servers to be connected and disconnected without powering down the KVM.
