

Quick Installation Guide

ENR-420

16-Channel 4-Bay Rackmount Standalone NVR

ENR-421

32-Channel 4-Bay Rackmount Standalone NVR

BEFORE YOU START

Thank you for purchasing ACTi ENR Standalone Network Video Recorder. This guide contains all the information you need to quickly set up the device via local display interface.

For detailed instructions on installation and operation, please search for the product manuals on <http://www.acti.com/downloadcenter>.

The items below are required for installation:

- Network cameras
- Monitor (with HDMI input and the cable)
- Network cables
- Network switch
- At least one ACTI-certified 3.5 inch SATA hard disk

Check the list of certified models in <http://www.acti.com/hddselector>

If you have any problems during installation, please contact us via <https://www.acti.com/CHD> or US/Canada toll-free number: 1-866-410-2284 (ACTI)

1 UNPACK

This package includes the following items:

- ENR Unit
- Power adapter
- Power cord
- Socket converter
- Hard disk screw pack
- Hard disk bay keys
- USB mouse
- Dust cover
- Terminal block

2 AT A GLANCE

| 7 | Power Input Connector | | |

3 RACKMOUNT THE UNIT

The unit can be mounted on a standard 1U server rack (1.75").

- Allot a minimum of 5 cm clearance at the front and rear of the unit for airflow.
- Prepare a rack shelf or rail kit suitable for the unit.
- Secure the unit to the rack by its chassis ears using suitable screws.

4 INSTALL HARD DISK DRIVE

Step 1

Push the lock towards the right to eject the HDD bay, then pull the latch lever pull out the HDD tray.

Step 2

Remove the empty tray from the HDD bay.

Step 3

Secure the hard disk on the tray using the bundled screws.

Step 4

Push the HDD bay completely into the slot until the bay locks into place.

* Repeat Step 2 to Step 8, to install more hard disk drive.

Step 5

Lock the disk tray and attach the dust cover.

5 CONNECTIONS

The example below displays a network with ENR and basic required peripherals to start using the device.

6 POWER ON

On the front panel, press the **POWER BUTTON** to turn on the **ENR**.

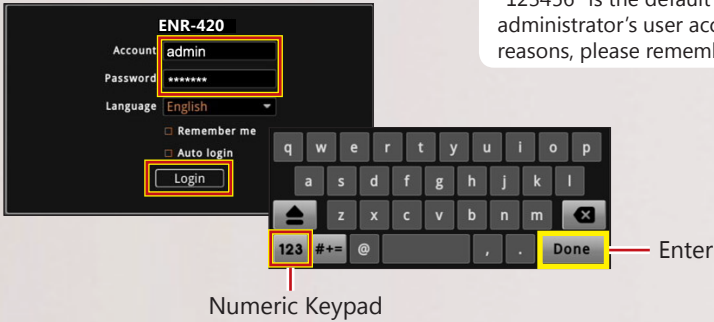

7 LOGIN

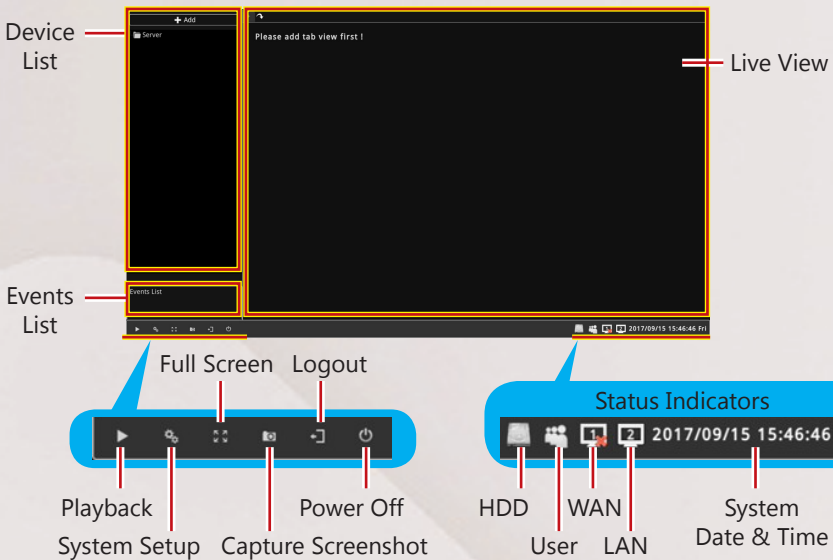

On the **Login** screen, using the on-screen keyboard, type the **Account** and **Password**.

Account: admin
Password: 123456

"123456" is the default password of the administrator's user account. For security reasons, please remember to change it.

The User Interface

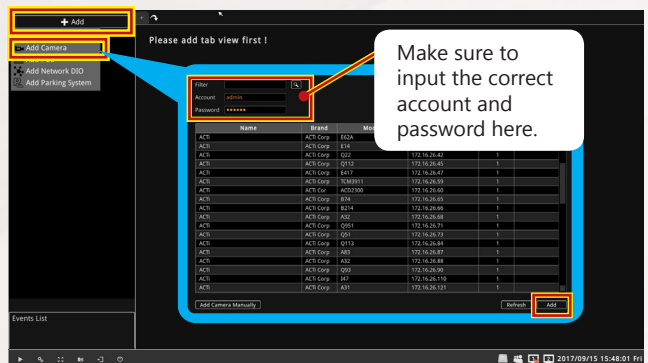

8 FORMAT THE HDD

1. Click the **System Setup** icon on the **Live View** screen.
2. Click the **Storage > Management** page.
3. Select the hard disk to format, then click **Format**.
4. Repeat the above steps to format the other disk, and then click **OK**.

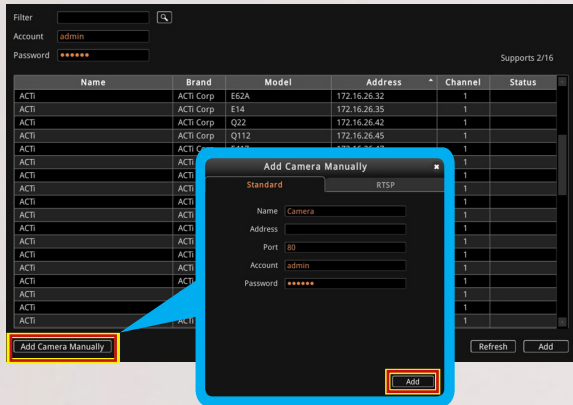

9 ADD DEVICES

1. On the **Live View** screen, click **Add**.
2. Click **Add Camera** from the pop-up menu.
Or, click other network devices to add them in the ENR. You may also group devices by creating a group. However, for this quick installation guide, we will only cover adding cameras in general.
3. Click a model to select the camera. The text of the selected camera will turn orange.
4. Repeat the above step to add more cameras.
5. Click **Add** to complete.

Add Camera Manually

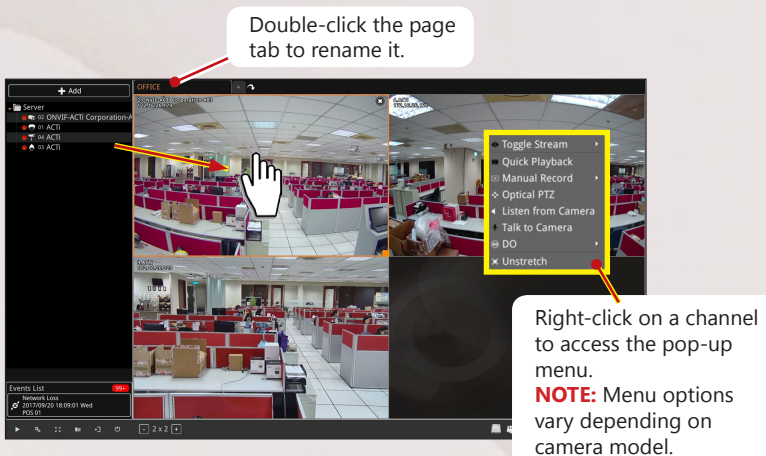

If you are adding cameras located in another network, click **Add Camera Manually**. Fill in the **IP address**, **HTTP Port**, **Account** and **Password**. Then click **Add**. Or, use the **RTSP** page for RTP protocol.

10 CHECK LIVE VIEW

After adding the cameras, the models are listed on the left panel of the **Live View** screen.

1. Create a tab view on the right panel, click .
2. Drag a model to the Live View screen.

11 MANAGE DEVICES

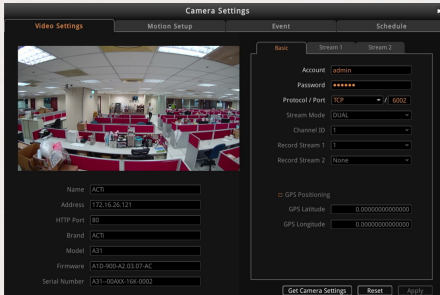

Managing the devices can be done from the **Live View** screen. Right-click on the device model from the left panel, then click to:

- **Rename** the device name on the list
- **Delete** the device from the list
- **Setup** the camera settings (see below)

Camera Settings

From the **Camera Settings** screen, click the corresponding page tab to configure video settings, set up motion detection, event and schedule recordings.

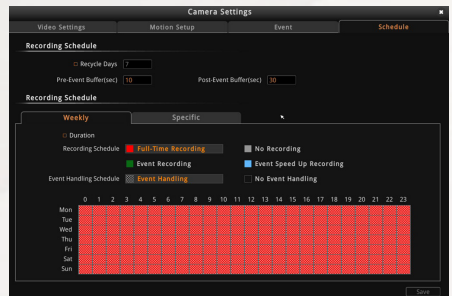

To modify the camera settings, click **Get Camera Settings**. Modify as needed, then click **Apply**.

- To configure motion setup, click **Setup**.
- To resize the detection area, drag the box on the lower right corner of the area.

To set the event trigger, double-click the **Edit** icon.

To configure the recording schedule, select a recording or event handling schedule, then mark the calendar and then click **Apply**.

12 CHECK RECORDINGS

On the Live View screen, click the **Playback**  icon on the bottom right corner to enter the **Playback** screen.

On the time bar, drag the current-time indicator to your desired position, and then click the **Playback** icon.

13 SYSTEM SETUP

Administrators can configure the ENR system setup.

1. On the **Live View** screen, click the **Setup**  icon on the bottom left corner.
2. On the Setup screen, click a menu page tab to access the settings:

- **System:** Includes system information, date and time, email settings, etc.
- **Network:** Includes network related configurations.
- **Storage:** Manages the storage settings of the ENR.
- **Maintenance:** Includes firmware upgrade and station management system.
- **Permission:** Includes users permission setup.
- **Log:** Lists the system log of the ENR.
- **Joystick:** Includes joystick configuration.
