Highlights

Always clear sound

Perfectly tuned 40 mm drivers give clear, sparkling sound with great bass — perfect for everything you love to watch. The full-size ear cups have an over-ear fit for great passive noise isolation. You won't miss a line of dialogue and you won't disturb others.

Bluetooth dongle

A super-stable, low-latency Bluetooth connection ensures that you won't have the syncing issues that can occur when watching TV with wireless headphones. You'll hear sound effects and dialogue in perfect time with what's happening on screen. On first use, simply press the dongle to pair.

Lightweight and comfortable

The lightweight design is super comfortable—ideal if you're bingeing a late-night series and don't want to upset the neighbours! The headband and soft, cushioned ear cups are adjustable, making it easy to find your best fit.

18 hours play time

With 18 hours play time, you'll never miss a moment of the action. A full charge takes 2 hours via the included USB-C cable—and if you do find you're running low, a quick 15 min charge gives you an extra hour. Perfect for another episode!

Set up in seconds

If your TV supports USB audio, connect the dongle directly to the TV's USB audio port. For TVs that don't support USB audio but do have a headphone socket, a 3.5 mm audio cable is included. Simply plug this cable into your TV's headphone socket and connect the dongle to the other end of the cable.
