

## Performance A+ Series

### LED Fan 120mm / LED Fan-SET

The new Xilence 120mm LED case fan adds another must-have for gamers to the portfolio of the Performance A+ series and brings light into the inside of the PC.

With its 4PIN RGB M/B connector being linked to the equivalent connector on the mainboard, the fan's color scheme can be controlled.

Additionally, the Fan-SET offers the possibility to connect further RGB fans via a 1-to-4 RGB M/B splitter. Via the small remote control included, it allows setting the complete color scheme from the outside of the PC case.

### Product Features

- optimal performance in every situation
- hydro bearing LED PWM-fan
- LED-effect with seven different colour options during operation
- airflow-optimized rotor blades

### Technical Data

	120mm	
Fan Dimensions	120 x 120 x 25mm	
Connector Type	Female RGB 4Pin (12V RGB M/B Sync)	
Noise Level	18.0 - 32.5 db (A)	
PWM	yes	
Fan Bearing	hydro bearing	
Air Flow	70 CFM	
Fan Speed	700 - 1.600 RPM $\pm$ 10%	
Weight	130 g	

#### Please note

The XPF120RGB-SET can also be combined with the M704RGB CPU cooler. With the 1-to-4 RGB M/B splitter and the the remote control, both included in the set, also the color schemes of the CPU cooler can be set.

### Scope of delivery

- 1 x Xilence LED PWM-Fan (RGB)
- 1 x Remote Control
- 1 x 1-to-4 RGB M/B-Splitter
- 1 x Receiver

### Logistical Data

Manufacturer Number	XPF120RGB	XPF120RGB-SET
Item Number	XF062	XF061
EAN Barcode	4044953501401	4044953501388
