

IntelliSkin® for the Samsung Galaxy S20 FE 5G SM-G781

IntelliSkin® is a protective sleeve featuring GDS® Technology with military-grade drop protection for the Samsung S20 FE 5G SM-G781. The IntelliSkin® sleeve's integrated GDS® connector is molded directly into the skin, preventing damage to your device's charging port from repetitive docking. Molded ruggedized docking contacts on the exterior of the skin are also designed for repetitive docking in field applications. This version of IntelliSkin® is compatible with a variety of USB Type-C GDS® Docks™ and accessories that allow for charging and data syncing.
