LANCOM Power Cord

Reliable power supply for LANCOM devices

The LANCOM Power Cord is the reliable solution for LANCOM devices with integrated power supply. The IEC power cords support common power connections and have a length of 1.8 meters.

> IEC power cords
> Available with UK plug / US plug / CH plug / AU plug
> Cable length 1.8 meters

LANCOM Power Cord

Fit for the following LANCOM devices	
LANCOM 1900EF	Multi-WAN VPN gateway for connection to high-speed fiber-optic networks and external modems—ideal for medium-sized VPN networking scenarios
LANCOM 1906VA-4G	Dual-VDSL VPN router with two integrated VDSL modems for up to 200 Mbps and LTE Advanced for up to 300 Mbps – ideal for load balancing and professional telephony
LANCOM 1906VA	Dual-VDSL VPN router with two integrated VDSL modems for up to 200 Mbps – ideal for load balancing and professional telephony
LANCOM 7100+ VPN	High-performance central-site VPN gateway for securely networking up to 200 sites
LANCOM 9100+ VPN	High-performance central-site VPN gateway for securely networking up to 1,000 sites
LANCOM GS-1108	Unmanaged 8-port Gigabit Ethernet switch for reliable networks
LANCOM GS-1108P	Unmanaged 8-port Gigabit Ethernet switch with Power over Ethernet for reliable networks
LANCOM GS-1326	Websmart 26-port Gigabit Ethernet Switch for cost-effective networks
LANCOM GS-2310	Managed 10-port Gigabit Ethernet switch for reliable networks
LANCOM GS-2310P+	Managed 10-port Gigabit Ethernet switch with Power over Ethernet for reliable networks
LANCOM GS-2326+	Managed 26-port Gigabit Ethernet switch for reliable networks
LANCOM GS-2326P+	Managed 26-port Gigabit Ethernet switch with Power over Ethernet for reliable networks
LANCOM GS-2328	Fully managed 28-port Gigabit Ethernet switch for high-performance networks
LANCOM GS-2328F	Fully managed 28-port fiber-optic & Gigabit Ethernet switch for high-performance internal networking
LANCOM GS-2328P	Fully managed 28-port Gigabit Ethernet switch with Power over Ethernet for high-performance networks
LANCOM GS-2352	Managed 52-port Gigabit Ethernet switch for reliable networks
LANCOM GS-2352P	Managed 52-port Gigabit Ethernet switch with Power over Ethernet for reliable networks
LANCOM WLC-4025+	Powerful WLAN controller for the central management of 25 to 100 access points and WLAN routers
LANCOM WLC-4100	Powerful WLAN controller for the central management of 100 to 1,000 access points and WLAN routers
Item number(s)	
LANCOM Power Cord (UK)	61650
LANCOM Power Cord (US)	61651
LANCOM Power Cord (CH)	61652
LANCOM Power Cord (AU)	61653
