

HPE ProLiant ML110 Gen10 4208 1P 16GB-R S100i 4LFF 550W PS Server (P10812-421)

ProLiant ML Servers

What's new

- Enhanced iLO 5 security features such as Server Configuration Lock, iLO Security Dashboard and Workload Performance Advisor.
- HPE InfoSight provides a cloud-based analytics tool that predicts and prevents problems before your business is impacted.
- Supports the second generation Intel® Xeon® Scalable processor family with up to

Overview

Are you searching for a tower server with enterprise-class reliability and performance at an exceptional value to meet your requirements? The HPE ProLiant ML110 Gen10 server is an enhanced single processor tower with performance, expansion, and security at an affordable price. It supports the Intel® Xeon® Scalable processor, HPE DDR4 SmartMemory with a maximum capacity of 192 GB, five PCIe slots, eight large form factor (LFF) or 16 small form factor (SFF) disk drives. It can easily be converted to a rack using 4.5U of rack space. The HPE ProLiant ML110 Gen10 server also offers optional

16 cores and up to 105W.

- Available aggressively priced SMB offer models regionally released as “Smart Buy Express” in the U.S. and Canada, “Top Value” in Europe, and “Intelligent Buy” in Asia Pacific and Japan.

redundant fan and redundant power supply to satisfy automatic fail-over needs, making this the ideal server for small- to mid-sized businesses, and remote and branch offices.

Features

Right-sized, with the Balance of Performance to Meet Growing SMB Requirements

The HPE ProLiant ML110 Gen10 server is compact with less than a 19-inch depth, quiet, and affordable that can deliver the performance needed for the compute demands of a growing office small- to mid-sized business.

Supports industry standard technology leveraging the Intel Xeon Scalable Processors operating with speeds of up to 3.8 GHz and up to 16 cores offering improved performance.

Supports up to two optional graphic processing units (GPUs) allowing one double wide and one single wide card to boost performance in graphic and Virtual Desktop Infrastructure (VDI) applications such as financial services, education, scientific research and medical imaging.

The embedded HPE Dynamic Smart Array S100i Controller for SATA disk drives supports boot, data and media needs. These enhanced HPE Smart Array Controllers provide the flexibility to choose the optimal 12 Gbps controller most suited to your environment, as well as operate in both SAS and HBA modes.

Expandability to Fit the Needs of Growing, Budget-conscious Businesses

The HPE ProLiant ML110 Gen10 server offers up to six DIMM slots with support for up to 192 GB of HPE DDR4 SmartMemory, helping to prevent data loss and downtime with enhanced error handling while improving workload performance and power efficiency.

Supports optional redundant fan and redundant power supplies reducing data loss and downtime, making your server more reliable. Flexible expansion capacity with five PCIe expansion slots, eight USB ports and one optional serial port.

HPE SmartDrives deliver enhanced performance, capacity, and reliability to meet various customer segments and workload requirements at the right economics. Supports up to eight large form factor (LFF) disk drives or 16 small form factor (SFF) disk drive options.

Security Innovations

The HPE ProLiant ML110 Gen10 Server is part of the Hewlett Packard Enterprise offering of industry-standard servers with major firmware anchored directly into the silicon. With security protection built-in across the server lifecycle starting with Silicon Root of Trust.

New features include Server Configuration Lock that ensure secure transit and lock server hardware configuration, iLO Security Dashboard help detect and address possible security vulnerabilities and Workload Performance Advisor provides server tuning recommendations for better server performance.

Secure Recovery allows server firmware to roll back to the last known reliable state or factory settings after detection of compromised code.

Industry-Leading Services and Ease of Deployment

The HPE ProLiant ML110 Gen10 server comes with a complete set of services from HPE Pointnext, delivering confidence, reducing risk, and helping you realize agility and stability.

HPE Pointnext Services simplifies all stages of the IT journey. Advisory and Transformation Services professionals understand customer challenges and design an enhanced solution. Professional Services enable rapid deployment of solutions and Operational Services provides ongoing support.

Services provided under Operational Services include: HPE Flexible Capacity, HPE Datacenter Care, HPE Infrastructure Automation, HPE Campus Care, HPE Proactive Services and multi-vendor coverage.

HPE IT investment solutions help you transform to a digital business with IT economics that align to your business goals.

Technical specifications

HPE ProLiant ML110 Gen10 4208 1P 16GB-R S100i 4LFF 550W PS Server

Product Number (SKU)	P10812-421
Processor Name	Intel® Xeon® Scalable 4208 (8 core, 2.1 GHz, 85W)
Processor core available	8
Processor cache	11.00 MB L3
Processor speed	2.1 GHz
Power supply type	1 HPE ML110 Gen10 550W ATX Power Supply Kit
Expansion slots	5 PCIe 3.0, for detailed descriptions reference the QuickSpecs
Memory, standard	16 GB (1x 16 GB) RDIMM
Memory type	HPE DDR4 SmartMemory
Included hard drives	None ship standard, 4 large form factor drives supported
Optical drive type	Optional DVD-ROM or DVD-RW.
Network controller	HPE Ethernet 1Gb 2-port 332i Adapter
Storage controller	HPE Smart Array S100i
Minimum dimensions (H x W x D)	44 x 19.5 x 48.05 cm
Weight	13.5 kg minimum 25.0 kg maximum
Infrastructure management	Included: HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download) Optional: HPE iLO Advanced, HPE iLO Advanced Premium Security Edition
Warranty	3/3/3 - Server Warranty includes three years of parts, three years of labor, three years of onsite support coverage. Additional information regarding worldwide limited warranty and technical support is available at: http://h20564.www2.hp.com/hpsc/wc/public/home . Additional HPE support and service coverage for your product can be purchased locally. For information on availability of service upgrades and the cost for these service upgrades, refer to the HPE website at http://www.hp.com/support

For additional technical information, available models and options, please reference the QuickSpecs

HPE Pointnext

HPE Pointnext leverages our breadth and depth of technical expertise and innovation to help to accelerate digital transformation. A comprehensive portfolio that includes – Advisory, Professional, and Operational Services is designed to help you evolve and grow today and into the future.

Operational Services

- **HPE Flexible Capacity** is a new consumption model to manage on-demand capacity, combining the agility and economics of public cloud with the security and performance of on-premises IT.
- **HPE Datacenter Care** offers a tailored operational support solution built on core deliverables. It includes hardware and software support, a team of experts to help personalise deliverables and share best practices, as well as optional building blocks to address specific IT and business needs.
- **HPE Proactive Care** is an integrated set of hardware and software support including an enhanced call experience with start to finish case management helping resolve incidents quickly and keeping IT reliable and stable.
- **HPE Foundation Care** helps when there is a hardware or software problem offering several response levels dependent on IT and business requirements.

Advisory Services includes design, strategy, road map, and other services to help enable the digital transformation journey, tuned to IT and business needs. Advisory Services helps customers on their journey to Hybrid IT, Big Data, and the Intelligent Edge.

Professional Services helps integrate the new solution with project management, installation and startup, relocation services, and more. We help mitigate risk to the business so there is no interruption when new technology is being integrated in the existing IT environment.
